## Introduction

The County System Improvement Plan is one the three major components required by the California Child and Family Services Review (C-CFSR). The C-CFSR emerged as a result of California’s Child Welfare System Improvement and Accountability Act (AB 636). In addition, since June 2008, the state has integrated into this process an analysis of the expenditure of federal and state funds for the Promoting Safe and Stable Families (PSSF), Child Abuse Prevention, Intervention and Treatment (CAPIT) and Community Based Child Abuse Prevention (CBCAP) funding streams.

In 2014, as required by AB 636, Santa Cruz County Family and Children’s Services and Santa Cruz County Juvenile Probation assessed, in collaboration with key community stakeholders, its performance on critical child welfare and probation outcomes, as well as key systemic factors. This robust self-assessment included a peer review, 19 focus groups, three individual interviews, and surveys in both Spanish and English for parents and care providers.

After completion of the county Self-Assessment, Santa Cruz County’s child welfare and juvenile probation agencies continued to work with key stakeholders to develop a five-year System Improvement Plan for Santa Cruz County. The County’s System Improvement Plan Steering Committee spent two planning meetings reviewing the findings from the County Self-Assessment, as well as current outcomes data, and discussing what strategies to include in the System Improvement Plan. A draft of the System Improvement Plan strategies was submitted to the Steering Committee for review in early June, prior to submission to the California Department of Social Services (CDSS) and the Board of Supervisors. The Committee approved this draft with a few minor changes. This process has resulted in the new 2015-2020 System Improvement Plan, which Santa Cruz County is pleased to submit to CDSS.

At this time the county does not anticipate requiring technical assistance from the National Resource Center, Western pacific Implementation Center, or Quality Improvement Centers.

## SIP Narrative

### **C-CFSR TEAM AND CORE REPRESENTATIVES**

#### **C-CFSR Team**

Judy Yokel, Director of Family and Children's Services

Valerie Thompson, Director of Juvenile Probation

Abby Wexler, Assistant Director, Family and Children's Services

Yolanda Perez-Logan, Assistant Director, Juvenile probation

Mark Holguin, Program Manager, Family and Children's Services

Angelica Glass, Program Manager, Family and Children's Services

Melissa Delgadillo, Program Manager, Family and Children's Services

Kelli Kopeck, Senior Analyst, Family and Children's Services (CAPIT/CBCAP/PSSF Liaison)

Sharon Fox, Social Work Supervisor, Family and Children's Services

Lisa Molinar, Shared Vision Consultants

Henry Franklin, CDSS Office of Outcomes and Accountability

Irma Munoz, CDSS Office of Child Abuse Prevention

#### **Core Representatives**

The Human Services Department and Probation Department wish to thank the numerous individuals and organizations that participated in the development of the System Improvement Plan for our local Child Welfare System (CWS). First, we acknowledge the leadership of the Chair of the System Improvement Steering Committee, Supervisor Bruce McPherson. His commitment to the welfare of children in Santa Cruz County is demonstrated by his engagement and oversight of this process.

Human Services and Juvenile probation also extend a sincere thanks to the various community members of the SIP Steering Committee who have brought a wealth of experience and dedication to this effort. These members have invested generously of their time and knowledge to improving outcomes for children and families in our community. Their active role in shaping the system and their thoughtful feedback are highly valuable to the child welfare and probation departments. These members are:

Bruce McPherson, Board of Supervisors	Michael Paynter, County Office of Education
David Brody, First 5 of Santa Cruz County	Jenny Sarmiento, Pajaro Valley Prevention and Student Assistance
Dane Cervine, Health Services Agency, Children's Mental Health	Casey Schutte, FosterEd, Youth Law Center
Cynthia Druley, CASA of Santa Cruz	Laura Segura, Monarch Services
Kristine Adams, Foster and Adoptive Parent Representative	John Gallagher, County of Santa Cruz Superior Court, Juvenile Division
Suzanne Stone, Above the Line/Homes for Kids	Brian Murtha, Human Services Commission
Celia Goeckermann, Parents Center	Cynthia Sloane, Encompass Community Services
Deborah Helms, Foster and Kinship Care Education Program, Cabrillo College	Susan Paradise, Encompass Community Services Transition Age Youth programs
Deutron Kebebew, Encompass Community Services, PAPÁS and Child Abuse Prevention Council (CAPC) Representative	Michael Watkins, Santa Cruz County Office of Education Participation of Core Representatives
Bill Manov, Health Services Agency, Alcohol and Drug Programs	Michael Groves, Foster Parent Association President
Dana McRae, County Counsel	

Core representatives who comprised the SIP Steering Committee participated in the full self-assessment and SIP process during quarterly meetings and in focus groups. Core representatives received regular updates on Santa Cruz County's performance on outcomes data measures, as well as progress on System Improvement Plan strategies. Members of the public also attended and participated in some of the quarterly SIP Steering Committee meetings.

## **PRIORITIZATION OF OUTCOME DATA MEASURES/SYSTEMIC FACTORS AND STRATEGY RATIONALE**

### **County Performance on Outcome Measures**

As indicated in our 2015 Self-Assessment, Santa Cruz County is performing very well in meeting the needs of children and families in the child welfare system, as evidenced by the following outcomes.

## **CHILD WELFARE**

For the comparison period, Santa Cruz County Human Services performance met or exceeded 18 national performance standards:

- S1.1 No recurrence of maltreatment within a specific 6 month period
- S2.1 No maltreatment in foster care
- C1.4 Reentry following reunification (exit cohort)
- C2.1 Adoption within 24 months
- C2.2 Median time to adoption
- C2.3 Adoption within 12 months (17 months in care)
- C2.4 Legally Free within 6 months (17 months in care)
- C2.5 Adoption within 12 months (legally free)
- C3.1 Exits to permanency (24 months in care)
- C3.2 Exits to permanency (Legally Free at Exit)
- C3.3 In care 3 years or longer and either emancipated or turned 18 prior to exit
- C4.1 Placement stability (8 days to 12 months in care)
- C4.2 Placement stability (12 to 24 months in care)
- C4.3 Placement stability (At least 24 months in care)
- 2B Immediate Response Referrals with a timely response
- 2B 10-Day referrals with a timely response
- 2F Monthly visits (out of home)
- 2F Monthly visits in residence (out of home)

The County performance was below the national standard on the remaining three outcomes which will be targeted in the SIP:

- C1.1 Reunification with 12 months (exit cohort)
- C1.2 Median time to reunification (exit cohort)
- C1.3 Reunification within 12 months (entry cohort)

In terms of timely reunification for CWS families, participants in the Peer Review and various other stakeholder groups suggested that Santa Cruz County's longer time to reunification may not be a bad thing, in spite of the national standard. The longer period of reunification services may be an appropriate level of intervention, given the severity of many families' issues, especially regarding substance abuse. While this makes sense to us, at the same time the County is committed to continuing our efforts to facilitate timely reunifications that will become stable and permanent. We believe that it may take longer to reach this goal than the national standard of 5.4 months. Our experience in Santa Cruz County certainly suggests that this is so.

Additionally S1.1, No recurrence of maltreatment within a specific 6 month period, will be targeted. Although Santa Cruz County is currently exceeding the national standard for this outcome, our performance in the past was not as good. Therefore, it is an area that the county would like to continue to monitor closely and make efforts to ensure that our strong performance continues.

## **JUVENILE PROBATION**

For the comparison period, Santa Cruz Probation's Juvenile Division met or exceeded two (2) national standards applicable to youth in placement through Probation:

- S2.1 No maltreatment in foster care
- 2F Monthly visits in residence (out of home)

For the same comparison period, the County was below the national standards for youth in juvenile probation placement on the following measures and will include these in the SIP:

- C1.1 – C1.4 Reunification Outcomes
- C3.3 -C4.3 Placement Stability

It is important to note that the majority of the youth in these cohorts were high risk youth with numerous criminogenic risk factors as well as low protective factors which in and of itself presents a challenge to meet the re-entry measures. In addition, these youth are returning to the same high risk environments which include but are not limited to minimal parental supervision, high gang activity and safety issues in their communities. There were many attempts to address responsibility issues as they arose which resulted in many youth being placed in different placements better equipped to meet their needs. Encompassed in this were efforts to address non-compliant behaviors, community safety, accountability and family and community engagement.

### **Service Gaps**

In 2014, FCS asked a variety of stakeholders, including parents, resource parents, youth, and service providers, for their opinions about the availability of services. One key finding was that, when a family's child welfare case closes and/or substance abuse treatment ends, parents often find it difficult to lose the support of their social worker, their substance abuse treatment provider, and the child welfare agency. Parents have asked for supportive aftercare services to assist them in maintaining their sobriety, and making the transition out of the child welfare system and into their regular communities with their natural support systems. (Page 167 and 181 of the County Self-Assessment)

#### *Suggested strategies:*

Aftercare - Partner with community based providers to develop aftercare support services for children & families exiting the CWS system.

Parent Partner Program- Develop a parent partner program to assist families in navigating the child welfare system and being aware of and accessing services where appropriate.

Responses also pointed to a need to expand substance abuse treatment funding to ensure access to all FCS parents in need of this service. Stakeholders cited needs for increased availability of intensive residential services for parents and their children, after care services, and Sober Living Environments (SLE) that accommodate parents with their children. HSD has already taken action to address these needs by more than doubling the amount of funding dedicated to substance abuse treatment for parents. In terms of services for children and youth, the 2014 self-assessment pointed to a need for services addressing

social/emotional issues of very young children, educational support for school age children and substance abuse services specifically targeted to youth. (Page 178-179 of the County Self - Assessment)

*Suggested strategy:* Work with Health Services Agency to ensure availability and effectiveness of substance abuse treatment.

In addition, across the various surveys conducted, a few themes emerged regarding barriers to accessing services: childcare and other logistical issues such as transportation, documentation issues for immigrants, and services that can accommodate parents who have difficulties complying with program rules (e.g., due to drug use, mental health issues, or attendance issues).

*Suggested strategies:*

Mental Health Services: Work with Health Services Agency and community partners to address gaps in services for parents with major mental health diagnosis.

Substance Use Disorders: Work with Health Services Agency to ensure availability and effectiveness of treatment.

Early Intervention/Prevention: Expand the Leaps and Bounds program to all CWS families.

### **Selection of outcomes to be included in the SIP**

As indicated above, Santa Cruz County will address all of the outcomes that do not meet the National Standard, with the addition of Recurrence of Maltreatment where we do exceed the National Standard but the county would like to continue to develop strategies so that no child that is a victim of child abuse and neglect experiences a subsequent incident of maltreatment.

### **Selection of Strategies to be included in the SIP**

The stakeholders and SIP Steering Committee have identified twelve overarching areas to improve outcomes for the children and families in Santa Cruz County, and 16 corresponding strategies.

The California Department of Social Services partnered with the Northern Training Academy Human Services Agency at U.C. Davis to conduct literature reviews regarding specific outcomes, to inform the work of child welfare and Juvenile Probation. These literature reviews have been helpful in developing some of the strategies that Santa Cruz has developed for the SIP.

### **CHILD WELFARE:**

1. Family Engagement – including the development of a parent partner program, strengthening services to incarcerated parents, improving engagement of fathers and expanding and fully implementing the Safety Organized Practice Model.
2. Caregiver Recruitment, retention and support – including updating the resource parent handbook and educating caregivers regarding mental health treatment and psychotropic medication for youth.
3. Mental Health Services – Work with Health Services Agency and community partners to improve access to psychiatry services for parents with mild to moderate diagnosis, and address gaps in services for parents with severe mental health diagnosis.
4. Treatment for Substance Use Disorders – Work with Health Services Agency to ensure availability and effectiveness of treatment.

5. Aftercare – Partner with community based providers to develop aftercare support services for children and families exiting the CWS system.
6. Education – Sustain the FosterEd program.
7. Early Intervention/Prevention – Expand Leaps & Bounds services to all CWS families.
8. Permanency – Partner with Encompass Community Services to provide permanency transition meetings for transition-age youth.
9. Best Practice – Continue to develop as a trauma-informed agency.

## **PROBATION:**

### Family Engagement

1. Transitioning Youth home – Improve transition of the youth from placement to home by developing a process where services are streamlined.
2. Improve supportive services for parents to prepare them for reunification with the youth.

## **Technical Assistance Required:**

Santa Cruz County has a very collaborative relationship with the California Department of Social Services and meets with their consultant on a quarterly basis to review every outcome and develop any needed course correction strategies. Additionally the County conducts an annual review of the System Improvement plan and reports progress and updates to CDSS.

The County also collaborates extensively with the Bay Area Academy to provide all necessary training to social workers.

## **STRATEGIES**

### **Child Welfare**

1. Family Engagement – including the development of a parent partner program, strengthening services to incarcerated parents, improving engagement of fathers and expanding and fully implementing the Safety Organized Practice Model.

### **Justification/Rationale**

In the Family Engagement Literature Review from the Northern Training Academy the number one recommendation is “the use of peer family mentors to serve as co-advocates” (pg 23) as well as “Comprehensive family assessment to identify family strengths, needs and necessary support services”

A specific emphasis by the Quality Improvement Center on Non-Resident Fathers and The Child Welfare System “showed that there has been little meaningful engagement between the child welfare system and fathers” (Literature Review on Non-Resident Fathers and the Child Welfare System). As discussed in the CSA, the mother is the most immediately and easily identified parent, by virtue of having given birth to the children. However, in Santa Cruz County, efforts are made to engage fathers in the case plan, either as a single parent or a second parent. If the child is removed, efforts to locate a

father are a primary focus. If a (non-offending) father becomes available for placement, FCS typically makes that placement.

Based on all of its findings, the report recommends, among other things, that child welfare agencies: (1) search for non-resident fathers early in cases (2) train caseworkers on identifying, locating, and involving fathers, and (3) develop models for engaging them constructively (Malm, Murray & Geen, 2006).

### **Action Steps:**

#### *Strategy 1: Develop and implement a parent partner program*

The Department has secured funding for a partner program in the FY 15-16 HSD budget. A work group will be formed to research best practices and visit existing parent partner programs. Once a model has been decided upon, the program will be designed, and a service provider selected. This contract will go to the Board of Supervisors for approval and then the parent partner program will be implemented. Ongoing evaluation and adjustment of the program will occur.

#### *Strategy 2: Strengthen Services for Incarcerated Parents*

In order to strengthen services to incarcerated parents, the Department will convene a collaborative workgroup that will be responsible for identifying needs and service gaps as well as best practices to meet those needs. Upon completion of this comprehensive assessment, the Department will ensure that resources are accessible for incarcerated parents and will support the “Read to Me” technology which enhances parent-child visitation.

#### *Strategy 3: Improve Engagement of Fathers*

In order to improve engagement of fathers, the Department will convene a workgroup which will evaluate best practices that can be implemented. Additionally, the Department will work with the Pappas organization to conduct regular Father Engagement assessments and training. Pappas will also provide training to the Dependency Court regarding father- specific issues.

#### *Strategy 4: Expand and fully implement the Safety Organized Practice Model*

The Department will complete training for all Child Welfare managers, supervisors and case carrying social workers, Court, attorneys and pertinent CBOs. The use of the SOP tools and principles will be supported throughout the system.

### **Systemic Changes identified:**

A new Parent Partner program will be created as a partnership between child welfare and a contracted service provider. In addition, all CWS staff will be fully trained on Safety Organized Practice and will incorporate it into their practice.

### **Training Identified:**

Train staff to the Parent Partner program as well as Incarcerated parent program and services. Complete staff training on the SOP model.

**Technical Assistance Needed:**

Identifying best practices

- 2. Caregiver Recruitment, retention and support – including updating the resource parent handbook and educating caregivers regarding mental health treatment and psychotropic medication for youth.

**Justification/Rationale**

The recruitment, retention and support of caregivers is critical to providing stability and permanency for our children and youth. Stakeholders discussed (CSA page 121) that when children and youth need to move placements it can be disruptive to the reunification process and causes significant trauma. Caregivers are supported by having a comprehensive handbook available to them. We developed our current handbook as part of our 2007 SIP. It needs to be updated at this time. In addition, stakeholders identified the need to provide caregivers with additional training on children’s mental health treatment and psychotropic medication.

**Action Steps:**

*Strategy 5: Update Resource Parent Handbook*

The current Resource Parent Handbook will be reviewed and updated using input from resource parents. It will be revised and distributed to Resource Families upon completion.

*Strategy 6: Educate Caregivers Regarding Mental Health Treatment and Psychotropic Medications for Youth*

The Department will collaborate with Children’s Mental Health to develop a shared understanding of our practices and values regarding delivery of mental health services and considerations for prescribing psychotropic medication for foster youth. Then, in collaboration with Cabrillo College’s FKCE program, we will provide training and materials to caregivers to educate them on these topics.

**Systemic Changes identified:** Additional training for caregivers.

**Training Identified:**

The Cabrillo College FKCE program will provide training to caregivers.

**Technical Assistance Needed:**

None identified

- 3. Mental Health Services – Work with Health Services Agency and community partners to address gaps in services to parents with severe mental health diagnoses and improve access to psychiatry services for parents with mild and moderate diagnose.

**Justification/Rationale**

The stakeholders noted that there is a lack of mental health services in Santa Cruz for parents with severe mental health diagnoses, as well as a lack of psychiatric services for parents with mild to moderate diagnoses. This negatively impacts reunification, and it was recommended that the county work with the Health Services Agency and community partners to address these gaps.

**Action Steps:**

*Strategy 7: Work with Health Services Agency and community partners to address gaps in service for parents with major mental health diagnoses*

In order to address service gaps, the Department will convene a collaborative workgroup including the Health Services Agency and relevant community partners. It will also assess the current system through surveys of staff and community. In order to fill these gaps, the Department and partners will identify potential funding streams which may augment mental health services for parents.

*Strategy 8: Work with Health Services Agency and community partners to address lack of psychiatric services for parents with mild to moderate diagnoses.*

In order to address the lack of psychiatric services for parents with mild to moderate diagnoses, the Department will convene a collaborative workgroup including HSA and community partners. It will also assess the current system through surveys of staff and community. After completion of this assessment, the Department will develop a plan for implementing services and strategies to meet this goal.

**Systemic Changes identified:**

Possible system changes related to providing mental health services to parents involved in the child welfare system.

**Training Identified:**

Training may be needed for Child Welfare staff, Mental Health providers and community partners.

**Technical Assistance Needed:**

None identified

4. Treatment for Substance Use Disorders – Work with Health Services Agency to ensure availability and effectiveness of treatment.

**Justification/Rationale**

Parental substance abuse is a common contributor to child abuse and neglect. Children of parents with substance abuse issues tend to enter foster care at younger ages (Frame, 2002), remain in foster care longer (Walker, Zangrillo, & Smith, 1991), are less likely to be reunified with their parents (Lewis, Giovanni, & Leake, 1997) and are more likely to re-enter the child welfare system (Wolock & Magura, 1996). One intervention that has been linked to reduced probability of re-abuse is substance abuse treatment. (Honomichl and Brooks, UC Davis Human Services Northern California - <http://www.humanservices.ucdavis.edu/Academy/index.aspx?unit=ACADEMY>)

There are indications that the high prevalence of substance abuse issues among both parents and youth in Santa Cruz County pose severe challenges to timely reunification. Data from the California Healthy Kids Survey suggests that the issue is more pervasive here than in many other areas of the state. Nearly one in three Santa Cruz County 11th-graders reported that they binge drink, compared with the state average of one in five students. Similarly, 30% of Santa Cruz County 11th-graders surveyed said they

smoke marijuana, compared with 20 percent of students across the state. The survey was conducted from 2009 to 2011.

The CSA clearly revealed a need for additional resources for drug and alcohol treatment services to assist families in treatment and recovery as a way to increase timely reunification and reduce re-entry. Stakeholders shared their experiences of witnessing parents attend treatment, but then return to the family system with little to no aftercare services to maintain sobriety. A universal recommendation was for more substance abuse treatment including in-patient for adults and youth, outpatient treatment, and enhanced aftercare services and support for both parents and youth. Participants in all focus groups talked about aftercare support for youth and families. It would help ensure that parents remain on track in their sobriety, and relapse issues can be addressed more quickly. It was believed that this would help immensely in successful reunification and reducing re-entry.

In addition, it has long been known that stress increases the risk of alcohol/drug relapse (Sinha, 2001). With the effects of the recent economic recession, many families have been facing critical stressors, including job loss, loss of housing, trying to hold multiple jobs or long work hours among others. Substance abuse “can impair a parent’s judgment and priorities, rendering the parent unable to provide the consistent care, supervision and guidance children need.” (Blending Perspectives and Building Common Ground. A Report to Congress on Substance Abuse and Child Protection, April 1999.)

The Human Services Department has already taken a critical first step to address the need for more substance abuse services: We have more than doubled the funding we provide to purchase substance abuse services through the Health Services Agency. HSD is now providing nearly \$1.2 million annually for this purpose.

**Action Steps:**

*Strategy 9: Work With the Health Services Agency (HSA) To Ensure Availability and Effectiveness of AOD Treatment*

Now that funding for AOD treatment has been increased, the Department will conduct regular meetings with HSA’s Alcohol & Drug Program managers to develop further understanding of current practices in the provision of AOD treatment in Santa Cruz County. Treatment utilization and types of treatment will be monitored, and adjustments will be made to the array of services in order to best meet the needs of the child welfare population.

**Systemic Changes identified:**

Funding for substance abuse treatment for CWS parents has already been significantly increased. This strategy involved monitoring and making adjustments to the service delivery system based on an assessment of the effectiveness of treatment.

**Training Identified:**

Staff and impacted AOD agencies may need to be trained relative to any changes in the service delivery system.

**Technical Assistance Needed:**

None identified

5. Aftercare – Partner with community based providers to develop aftercare support services for children and families exiting the CWS system.

**Justification/Rationale:**

In 2014, FCS asked a variety of stakeholders, including parents, resource parents, youth, and service providers, for their opinions about the availability of services. One key finding was that, when a family’s child welfare case closes and/or substance abuse treatment ends, parents often find it difficult to lose the support of their social worker, their substance abuse treatment provider, and the child welfare agency. Parents have asked for supportive aftercare services to assist them in maintaining their sobriety, and making the transition out of the child welfare system and into their regular communities with their natural support systems. Aftercare services are expected to improve the county’s performance on re-entry to foster care and recurrence of maltreatment, as families will be more supported and less stressed by the challenges they may face.

**Action Steps:**

*Strategy 10:* Partner with community based providers to develop aftercare support services for children and families exiting the CWS system.

The Department will research aftercare services provided in other counties, and will review evidence to identify promising and evidence-based practices in this area. HSD will seek funds for an aftercare program and will work with community partners to develop and implement such a program.

**Systemic Changes identified:**

A new service program will be created that will impact how families are served, and will need to be incorporated into the current service delivery system provided by Child Welfare.

**Training Identified:**

Staff will need to be trained to the new aftercare program.

**Technical Assistance Needed:**

Assistance in identifying child welfare jurisdictions which provide successful aftercare services.

6. Education – Sustain the FosterEd program.

**Justification/Rationale**

*FosterEd* is an initiative of the National Center for Youth Law that improves the educational outcomes of foster children by ensuring each has an educational champion supporting his or her success in school. The goal of *FosterEd: Santa Cruz County* is to improve the educational outcomes of children in Santa Cruz County’s foster care system by ensuring each has an education team and educational champion supporting his or her school success. (CSA page 80-81). The stakeholders would like to include this as a SIP strategy to ensure that the program is sustained in the County.

**Action Steps:**

*Strategy 11:* Sustain FosterEd program

The Department has committed \$85,000 per year to help sustain the FosterEd program beginning July 1, 2015. In addition, the Department will engage with the County Office of Education and the FosterEd Steering Committee to strategize sustainability. Funding streams and sources such as the Local Control Funding and Title IVE funding will be explored in order to sustain this extremely valuable program.

**Systemic Changes identified:**

None identified

**Training Identified:**

None identified

**Technical Assistance Needed:**

Support regarding leveraging and maximizing IV-E funding support for this strategy.

7. Early Intervention/Prevention – Expand Leaps & Bounds services to all CWS families.

**Justification/Rationale**

The CSA revealed a strong desire from stakeholders to increase and improve services for young children. Family & Children’s Services, in collaboration with the Parents Center, operates the Leaps & Bounds program, which provides home visiting, developmental assessments, and other specialized services to families with young children who are participating in Family Preservation Court (Drug Dependency Court). Strategy 12 focuses on expanding this program to serve all families with young children.

**Action Steps:**

*Strategy 12:* Expand and enhance Leaps & Bounds Services to additional CWS Families with Children Ages 0-5.

The Department will identify funding options to determine feasibility of expanding the Leaps & Bounds program. Additionally the community partners involved in service delivery to children birth through age five, and their families (Head Start/Early Head Start; First 5 Santa Cruz County; Early Childhood Educators, Early Start, etc.) will be engaged in the process. It is anticipated that the County will increase its contract with the Parents Center to implement the expanded program.

**Systemic Changes identified:**

None identified; this is an expansion of a current program.

**Training Identified:**

None identified

**Technical Assistance Needed:**

None identified

8. Best Practice – Continue to develop as a trauma-informed agency and develop a Quality Assurance child welfare program.

**Justification/Rationale**

According to the 2012 Report of the Attorney General’s National Task Force on Children Exposed to Violence, 46 million children living in the United States will have their lives affected by violence, crime, abuse, or psychological trauma this year. Children in care are more likely to have been exposed to multiple forms of traumatic experiences, such as physical or sexual abuse, neglect, family and/or community violence, trafficking or commercial sexual exploitation, bullying, or loss of loved ones. In addition to the circumstances of abuse or neglect that led to their removal, children may be subject to further stresses after entering the system, including separation from family, friends, and community, as well as the uncertainty of their future. Repetitive and significant encounters with trauma and stress have real consequences for the physical, social, and emotional well-being of children. The trauma experienced by children in foster care is often complex and, if left untreated, can permanently affect the growth and development of a child and invite lasting repercussions felt decades later. Symptoms of trauma may include behavioral problems, attention/concentration issues, separation anxiety, and extreme impulsivity. Given the significant impact of trauma exposure on child well-being and growth, child welfare systems must serve children from a trauma-informed perspective. (Implementing Trauma-Informed Practices in Child Welfare .Eva J. Klain, Amanda R. White. ABA Center on Children and the Law. November 2013)

**Action Steps:**

*Strategy 13:* Continue to develop as a trauma-informed agency.

Together with Children’s Mental Health and other Santa Cruz County partners, participate in the grant-funded Bay Area Trauma Informed System of Care (BATISC) project. Through the BATISC project, conduct research on best practices in trauma informed service delivery. Incorporate additional trauma-informed practices into the work of the child welfare agency.

**Systemic Changes identified:**

Creating a Trauma Informed system of care requires significant system change.

**Training Identified:**

Staff and partners will continue to receive training on trauma-informed practice, and will be trained to any new practices that are put into place.

**Technical Assistance Needed:**

Technical Assistance from the BATISC will be utilized.

9. Permanency – permanency transition meetings.

**Justification/Rationale**

Permanency transition meetings are an important component of Santa Cruz County’s services to older youth. These meetings are attended by the youth, social worker, key adults in the youth’s life, and other service providers and/or support people invited by the youth. The goal of these meetings is to identify goals for the youth in key areas such as school, career, housing, self-sufficiency, and lifelong connections. Ideally, these meetings should be held every six months beginning when a youth reaches

age 15 and a half. However, with current staffing and caseloads, we have found that these meetings are not always held as regularly as they should be.

**Action Steps:**

*Strategy 14:* Partner with Encompass Community Services' Transition Age Youth program to provide a full-time coordinator for permanency transition meetings for youth age 15.5 and older.

**Systemic Changes identified:** The responsibility for coordinating permanency transition meetings will be shifted to a community service provider that focuses on transition-age youth. This will be handled through a contract between HSD and the Encompass/TAY program.

**Training Identified:**

Staff and partners will need to be trained to the change in how permanency transition meetings will be coordinated.

**Technical Assistance Needed:**

None identified.

**Probation**

1. Provide Transition Specialist(s) to facilitate re-entry and improve reunification outcomes

**Justification/Rationale**

The CSA recommended that to improve transition of the youth from placement to home, a process where services are streamlined at a set time frame prior to their transition should be developed. This process would involve engagement of the providers (placement and community), youth and family. It would improve supportive services for parents to prepare them for reunification with the youth.

In order to improve re-entry and reunification outcomes, the Probation department has been successful in receiving a MIOCR grant from the BSCC to improve services to families and youth.

**Action Steps:**

*Strategy 1:* Provide Transition Program to facilitate re-entry and improve reunification outcomes.

In order to improve re-entry and reunification outcomes, the Department will hire new staff such as a Specialist position, In-home clinician, and Probation position which handles a specialized caseload of youth with mental health diagnosis including youth in placement. The Department will engage community partners to develop services needed in the community to address the availability of crisis response services and intensive out-patient mental health services.

**Systemic Changes identified:**

This strategy will enhance current systems.

**Training Identified:**

Probation staff will need to be trained to the MIOCR grant specifications and the importance of supporting families in reunification.

**Technical Assistance Needed:**

TA will be provided through the grant.

2. Increased focus on responsivity

**Justification/Rationale**

Probation youth are returning to the same high risk environments which include but are not limited to minimal parental supervision, high gang activity and safety issues in their communities. According to the CSA, there were many attempts to address responsivity issues as they arose which resulted in many youth being placed in different placements better equipped to meet their needs. Encompassed in this were efforts to address non-compliant behaviors, community safety, accountability and family and community engagement. The area of responsivity will be addressed.

**Action Steps:**

*Strategy 2:* Implement a Responsivity Program.

The Department will develop a formal process to monitor Risk Need and Responsivity relative to holding placement providers accountable for successful outcomes. After thorough research, the Department will implement a program.

**Systemic Changes identified:**

This process will be integrated into the current system.

**Training Identified:**

Probation staff will need to be the Risk Need and Responsivity model.

**Technical Assistance Needed:**

TA will be identified as needed.

3. Greater inclusion of parents/guardians in case planning

**Justification/Rationale**

As reported in the CSA, parents and youth had a mix of views as to whether they felt included in case planning. There were parents who were able to advocate for their child and felt good about the outcomes and there were parents who felt that they were not asked and even when they were, they were not heard. Youth also had differing views as to their input. Families that had an intervention team or program like WRAP seemed to have more positive experiences and feel that they were more involved in the solutions for their families. Involving youth, parents more in case planning was recommended by stakeholders.

**Action Steps:**

*Strategy 3:* In depth communication with parents to identify expectations of parents, probation and placement providers and greater inclusion of parents/guardians in case planning.

The Department will develop a Parent/Youth driven Case Plan template and utilize the Case Plan template to complete the Placement Case Plan with parents and youth.

**Systemic Changes identified:**

None identified

**Training Identified:**

Probation staff will need to be trained to the new process and template.

**Technical Assistance Needed:**

None identified

## PRIORITIZATION OF DIRECT SERVICE NEEDS

The CAPIT/CBCAP/PSSF Plan is designed to maintain community services for families in crisis and to ultimately improve child and family well being. In 2014-15 the Children’s Network Cabinet developed a process for the planning and criteria development for the expenditure of CAPIT/CBCAP and PSSF revenue sources for fiscal years 2015-16, 2016-17, 2017-18, 2018-19 and 2019-2020. The Children’s Network Cabinet completed an analysis of child abuse and neglect prevention, intervention and treatment efforts and gaps in service delivery with significant consideration to the existing services that have been funded with CAPIT/CBCAP/PSSF over the past 10 years as well as information gathered during the CSA process. Special attention was given to the fact that data from Santa Cruz’s CAPIT Survey FY 2013-14 and CSA 2015 indicate the highest substantiated type of abuse is neglect, and the most frequent risk factor driving children into the CWS system is substance abuse. The Network supports implementation of evidence-based or evidence-informed practices. In order to maintain a seamless continuum of needed services, and avoid creating any new gaps in the service continuum, the Network ultimately decided to continue to fund service strategies that are currently provided to the community. An RFP process is currently underway to fund the following service strategies:

***Countywide Differential Response:*** Families Together is a comprehensive child abuse early intervention and prevention program serving the entire county. This initiative, using a differential response model, is a collaborative effort between the FCS Division and Encompass Community Services. Funding from First 5, and Santa Cruz County Health Services and Human Services Departments (including CCTF, CAPIT, and PSSF Family Support) are braided together to support this program. Families Together is an essential part of the Differential Response strategy developed in Santa Cruz County to reduce child abuse and neglect. It is an evidence-based program that utilizes home-based, individualized services with an emphasis on the parent-child relationship and child development and parent education. Goals of the program include:

- Improved parent-child relationship
- Improved family support
- Improved community engagement
- Improved child safety
- Improved child health and development
- Improved child well-being

Participation in Families Together is voluntary. Family and Children’s Services (FCS) refers parents and pregnant women to this program when they’ve been reported to FCS and the referral has been either assessed out or investigated and the case has been closed with a substantiated or inconclusive allegation. Once a referral is identified, a FCS social worker contacts the family to engage them in voluntary community-based services. The following services are provided:

- Assessment using SDM assessment tools, Ages and Stages Questionnaire (ASQ) and the Nursing Child Satellite Training (NCAST)

- Provision of basic needs – food, housing, diapers, transportation, clothing, job search
- Advocacy – for medical care, legal issues, education
- Housing assistance – rental assistance, housing resources, budgeting skills
- Parent education and skill building – early childhood education, Triple P Parenting education
- Mental health services – counseling, psychological assessment, support groups, development of life skills
- Referral to other community resources including substance abuse assessment and treatment

***CWS Flexible Fund:*** A flexible fund provides tangible support to families receiving Child Welfare Services, to facilitate reunification and family preservation by providing flexible, family-based, intensive time-limited and culturally competent intervention and treatment services to families in crisis. This program is supported through PSSF Family Preservation funds.

***Adoption Promotion and Support:*** This program, supported through PSSF Adoption Promotion and Support funds, provides culturally competent, bilingual counseling and support services that promote, support and encourage the adoption process for parents who are considering adoption, going through the adoption process, or have already adopted children from FCS.

***Therapeutic Supervised Visitation:*** Therapeutic supervised visitation promotes and encourages healthy parent-child relationships, and assists children and natural parents in the work of family reunification. A trained bilingual visit supervisor who is culturally competent supervises Court-ordered visits for families referred by FCS. The visit supervisor is supervised by a licensed or license-eligible clinician. This program incorporates Triple P, and evidence-based parenting education curriculum. It is supported through PSSF Time Limited Family Reunification funds.

***Coordination and Integration of Children’s Services:*** CBCAP funds are designated to provide services and perform activities to enhance the coordination and capacity-building functions of the Children’s Network. The Children’s Network is the countywide child abuse prevention coordinating council whose primary purpose is to coordinate the community’s efforts to prevent and respond to child abuse and to reduce fragmentation of programs for at-risk children and families in Santa Cruz County. It serves as a vehicle for planning, coordination, collaboration, networking and information sharing. The intent of the Children’s Network is to encourage the development of a comprehensive and collaborative delivery system of services to the children and youth of Santa Cruz County.

## Child Welfare/Probation Placement Initiatives

Santa Cruz County Family & Children's Services is participating in a number of federal and state initiatives. We will be implementing these initiatives during the same time frame that is covered by the SIP. These initiatives are briefly summarized below.

### **Commercially Sexually Exploited Children (CSEC) Initiative**

Santa Cruz County is currently engaged in a tri-county effort with Monterey and San Benito Counties to develop a regional protocol for identifying and serving children who are commercially sexually exploited. We anticipate completing the tri-county Memorandum of Understanding by October 1, 2015, followed by implementation of services the tri-county protocol.

### **Safety Organized Practice**

Family & Children's Services has trained a portion of our social work and supervisor staff in Safety Organized Practice. SIP strategy #4 reflects our plan to expand this initiative, training 100% of our social work and supervisor staff and fully implementing the SOP approach.

### **Katie A. and Continuum of Care Reform**

Family & Children's Services, in collaboration with Children's Mental Health, has implemented Katie A services, primarily through the use of Child and Family Teams. In addition, like all counties in the State, we will be implementing Continuum of Care Reform. A key component of both these initiatives is the need for additional foster homes, particularly homes that are able to provide therapeutic foster care services. Therapeutic foster care is not yet approved by the State for implementation and mental health billing under Katie A, but we want to be prepared when that occurs, as we will clearly need these homes as an alternative to long-term stays in group homes.

### **Fostering Connections / After 18 Program**

Santa Cruz County began providing *After 18* program services in January of 2012. The goal of extended foster care is to assist foster youth in maintaining a safety net of support while experiencing independence in a secure and supervised living environment. The extended time as a non-minor dependent (NMD) can assist the youth in becoming better prepared for successful transition into adulthood and self-sufficiency through education and employment training. In Santa Cruz County, many foster youth are choosing to remain in foster care to receive extended supportive services as they venture into more independent living situations in their journey to adulthood. As of July 1, 2014, 32 NMDs remained in care. The After 18 program is not the focus of any strategies in the 2015 SIP, as this program is already fully implemented.

## 5 Year Strategy Chart

### CHILD WELFARE

**Priority Outcome Measure or Systemic Factor:** S1.1 No Recurrence of Maltreatment

**National Standard:** 94.6%

**Current Performance:** 95.5%

**Target Improvement Goal:** Although the current performance is above the national standard, the county's previous performance in 2010 was 97.5%. The target improvement goal will be to increase the county's performance to 97.5%.

**Priority Outcome Measure or Systemic Factor:** C1.1 Reunification within 12 months (exit cohort)

**National Standard:** 75.2%

**Current Performance:** 62.1% (38 of 58 children)

**Target Improvement Goal:** Since the previous baseline, this outcome decreased from 69.2% to 62.1%. This SIP's goal is to improve C1.1 from 62.1% to 75%. This would involve an increase of six children reunifying within 12 months.

**Priority Outcome Measure or Systemic Factor:** C1.2 Median time to reunification (exit cohort)

**National Standard:** 5.4 months

**Current Performance:** 9.1 months

**Target Improvement Goal:** Since the previous baseline, this outcome has increased from 7.4 months to 9.1 months. The SIP's goal is to decrease the median length of time to reunification from 9.1 months to 5.4 months.

**Priority Outcome Measure or Systemic Factor:** C1.3 Reunification within 12 months (entry cohort)

**National Standard:** 48.4%

**Current Performance:** 25.4% (15 of 59 children)

**Target Improvement Goal:** Since the previous baseline, this outcome has decreased from 41.9% to 25.4%. The SIP's goal is to increase this measure to 48.4%. This would involve an increase of 13 more children reunifying within 12 months.

**Priority Systemic Factors:** Family Engagement, Caregiver Recruitment and Support, Service Array

**National Standard:** N/A

**Current Performance:** Not measurable

**Target Improvement Goal:** The county intends to improve the abovementioned systemic factors through a variety of strategies (see SIP matrix). It is anticipated that these areas will improve the county's overall performance.

## PROBATION

**Priority Outcome Measure or Systemic Factor:** C1.1 – C1.4 Reunification Outcomes

C1.1 Reunification within 12 months (exit cohort)

**National Standard:** 75.2%

**Current Performance:** 50% (2 of 4 children)

**Target Improvement Goal:** The SIP's goal is to improve this outcome to 75%, which would result in 1 more children reaching reunification within 12 months.

C1.2 Median time to reunification (exit cohort)

**National Standard:** 5.4 months

**Current Performance:** 11.2 months

**Target Improvement Goal:** The SIP's goal is to improve this outcome by decreasing the median time to reunification to 5 months.

C1.3 Reunification within 12 months (entry cohort)

**National Standard:** 48.4%

**Current Performance:** 0% (0 of 2 children)

**Target Improvement Goal:** The SIP's goal is to improve this outcome to increase this outcome to 50%, which would result in 1 child reunifying within 12 months.

C1.4 Reentry following Reunification (Exit Cohort)

**National Standard:** 9.9%

**Current Performance:** 42.9% (6 of 14 children)

**Target Improvement Goal:** The SIP's goal is to improve this outcome to decreasing this outcome to 10% which would result in 5 less children reentering foster care.

**Priority Outcome Measure or Systemic Factor:** C4.1- C4.3 Placement Stability

C4.1 Placement Stability Outcome (8 days to 12 months in care)

**National Standard:** 86%

**Current Performance:** 76.9% (20 out of 26 children)

**Target Improvement Goal:** The SIP's goal is to improve this outcome to increase this outcome to 86% which would be an increase of 2 children who are in placement between 8 days and 12 months remaining in a stable placement.

C4.2 Placement Stability Outcome (12 to 24 months in care)

**National Standard:** 65.4%

**Current Performance:** 0% (0 of 4 children)

**Target Improvement Goal:** The SIP's goal is to improve this outcome to increase this outcome to 65% which would be an increase of 2-3 children who are in placement between 12 to 24 months remaining in a stable placement.

C4.3 Placement Stability Outcome (at least 24 months in care)

**National Standard:** 41.8%

**Current Performance:** 60% (3 of 5 children)

**Target Improvement Goal:** This outcome is performing well. The SIP's goal is to continue performing above the National Standard.

5 YEAR SIP STRATEGY MATRIX – SANTA CRUZ COUNTY

<b>Strategy 1:</b> Develop and implement a parent partner program.	<input type="checkbox"/> CAPIT	Applicable Outcome Measure(s) and/or Systemic Factor(s): Median time to reunification, recurrence of maltreatment, re-entries to foster care  <input type="checkbox"/> Title IV-E Child Welfare Waiver Demonstration Capped Allocation Project	
	<input type="checkbox"/> CBCAP		
	<input type="checkbox"/> PSSF		
	<input checked="" type="checkbox"/> N/A		
Action Steps:	Implementation Date:	Completion Date:	Person Responsible:
<b>A.</b> Include funding for a parent partner program in the FY 15-16 HSD budget	April 2015	June 2015	FCS Division Director
<b>B.</b> Research best practices and visit existing parent partner programs including Santa Cruz County’s mental health family partner program, Contra Costa County’s program, and others as identified.	June 2015	August 2015	FCS Division Director (Lead) FCS Program Manager
<b>C.</b> Develop a program design for a parent partner program for child welfare parents.	August 2015	September 2015	FCS Program Manager
<b>D.</b> Carry out procurement process to select a service provider for the program.	October 2015	November 2015	Centralized Contracting Unit

E. Negotiate contract and secure Board of Supervisors approval of the contract.	November 2015	December 2015	Centralized Contracting Unit
F. Implement parent partner program.	January 2016	Ongoing	Service provider
G. Monitor, evaluate, and adjust the program as needed.	February 2016	Ongoing	Centralized Contracting Unit (Lead) FCS Analyst and Program Manager
Strategy 2: Strengthen Services For Incarcerated Parents	<input type="checkbox"/> CAPIT	Applicable Outcome Measure(s) and/or Systemic Factor(s): Service Array	
	<input type="checkbox"/> CBCAP		
	<input type="checkbox"/> PSSF		
	<input checked="" type="checkbox"/> N/A	<input type="checkbox"/> Title IV-E Child Welfare Waiver Demonstration Capped Allocation Project	
Action Steps:	Implementation Date:	Completion Date:	Person Responsible:
A. Reach out to jail personnel and various local organizations serving incarcerated parents such as Gemma and HSA to collaborate on improving services to incarcerated parents in the CWS system.	September 2016	October 2016	FCS Division Director

5 YEAR SIP STRATEGY MATRIX – SANTA CRUZ COUNTY

<p><b>B.</b> Convene a workgroup including FCS staff, jail personnel, and community providers, to identify the needs of incarcerated parents involved in the CWS system and develop a plan to respond to the identified needs.</p>	<p>October 2016</p>	<p>October 2017</p>	<p>FCS Division Director (Lead) FCS Analyst</p>
<p><b>C.</b> Solicit information from parents who were formerly incarcerated, jail staff, social workers, and supervisors regarding the needs of incarcerated parents and input regarding services to address these needs.</p>	<p>October 2016</p>	<p>December 2016</p>	<p>Selected members of workgroup</p>
<p><b>D.</b> Conduct a literature review of current best practices in the delivery of Child Welfare Services to incarcerated parents.</p>	<p>October 2016</p>	<p>December 2016</p>	<p>FCS Analyst</p>
<p><b>E.</b> Compile and analyze information gathered in previous steps and present to workgroup for discussion and/or inclusion in plan.</p>	<p>December 2016</p>	<p>February 2017</p>	<p>FCS Division Director (Lead) FCS Analyst</p>
<p><b>F.</b> Create “service packets for incarcerated parents,” that are easily accessible to FCS social workers. This will allow social workers to print out and customize packets to the needs of their particular client.</p>	<p>February 2017</p>	<p>June 2017</p>	<p>FCS Analyst</p>

<p><b>G.</b> Identify funding to purchase technology necessary to develop a “read to me” program in local jail facilities, and the requisite staff time. This would potentially include recording parents reading children’s books on video to later be watched by their children in out-of-home placement.</p>	December 2016	June 2017	FCS Division Director (Lead) Selected Workgroup members
<p><b>H.</b> Identify funding to create a program for visitation between incarcerated parents and their children using video conferencing technology.</p>	December 2016	June 2017	FCS Division Director
<p><b>I.</b> Design “read to me” and video-conferencing-based visitation programs.</p>	April 2017	June 2017	FCS Program Manager (Lead) FCS Analyst Jail Personnel
<p><b>J.</b> Expand visitation contract to cover video-conferencing-based visitation program.</p>	May 2017	July 2017	Centralized Contracting Unit (Lead) Service Provider
<p><b>K.</b> Implement new programs</p>	July 2017	Ongoing	FCS Program Manager (Lead) Service Provider

5 YEAR SIP STRATEGY MATRIX – SANTA CRUZ COUNTY

<p><b>L.</b> Reconvene workgroup at 6-month intervals over the first two years of the plan to assess progress and adjust programs as needed.</p>	<p>July 2017</p>	<p>June 2019</p>	<p>FCS Division Director (Lead) Service Provider</p>
<p><b>Strategy 3:</b> Improve Engagement of Fathers</p>	<p><input type="checkbox"/> CAPIT <input type="checkbox"/> CBCAP <input type="checkbox"/> PSSF <input checked="" type="checkbox"/> N/A</p>	<p>Applicable Outcome Measure(s) and/or Systemic Factor(s): Family engagement  <input type="checkbox"/> Title IV-E Child Welfare Waiver Demonstration Capped Allocation Project</p>	
<p>Action Steps:</p>	<p>Implementation Date:</p>	<p>Completion Date:</p>	<p>Person Responsible:</p>
<p><b>A.</b> Convene FCS Father Engagement Workgroup to evaluate how to incorporate best practices for father engagement in Child Welfare into internal business processes.</p>	<p>November 2015</p>	<p>Ongoing</p>	<p>FCS Assistant Division Director</p>
<p><b>B.</b> FCS staff will participate in a Father Engagement Assessment, conducted by PAPAS every other year to identify areas in need of improvement.</p>	<p>January 2017</p>	<p>Ongoing</p>	<p>Assistant Division Director (Lead) PAPAS Director</p>
<p><b>C.</b> PAPAS will provide yearly training to FCS staff to improve father engagement techniques in Child Welfare practice.</p>	<p>Spring 2016</p>	<p>Ongoing</p>	<p>PAPAS Director</p>

D. PAPAS and FCS will offer training to Dependency Court Systems participants regarding legal and social work practice issues specific to fathers.	Spring 2016	Spring 2016	FCS Assistant Division Director (Lead) PAPAS Director
<b>Strategy 4:</b> Expand and fully implement the Safety Organized Practice Model	<input type="checkbox"/> CAPIT	Applicable Outcome Measure(s) and/or Systemic Factor(s): Median time to reunification, recurrence of maltreatment, re-entries to foster care, family engagement	
	<input type="checkbox"/> CBCAP		
	<input type="checkbox"/> PSSF	<input type="checkbox"/> Title IV-E Child Welfare Waiver Demonstration Capped Allocation Project	
	<input checked="" type="checkbox"/> N/A		
Action Steps:	Implementation Date:	Completion Date:	Person Responsible:
A. Complete Safety Organized Practice (SOP) training for all Child Welfare managers, supervisors and case carrying social workers.	In Process	Summer 2016	FCS Assistant Division Director (Lead) HSD Staff Development
B. Provide SOP training for the Court, attorneys and pertinent CBOs.	Fall 2015	Fall 2015	FCS Assistant Division Director (Lead) HSD Staff Development
C. Managers and supervisors will continue to support consistent use of SOP tools and practice principles.	In Process	Ongoing	FCS Management team (Lead) FCS Supervisor team

<b>Strategy 5:</b> Update Resource Parent Handbook	<input type="checkbox"/> CAPIT	Applicable Outcome Measure(s) and/or Systemic Factor(s): Caregiver training and support	
	<input type="checkbox"/> CBCAP		
	<input type="checkbox"/> PSSF		
	<input checked="" type="checkbox"/> N/A	<input type="checkbox"/> Title IV-E Child Welfare Waiver Demonstration Capped Allocation Project	
<b>Action Steps:</b>	<b>Implementation Date:</b>	<b>Completion Date:</b>	<b>Person Responsible:</b>
<b>A.</b> Identify which aspects of the handbook need to be updated.	January 2017	February 2017	FCS Licensing Supervisor (Lead)  FCS Licensing Program Manager
<b>B.</b> Indicate needed corrections/updates on hard copies of those documents requiring changes.	February 2017	March, 2017	FCS Licensing Supervisor (Lead)  FCS Licensing Program Manager
<b>C.</b> Solicit input from Resource Families as to ideas for additional documents to be included in handbook.	February 2017	March 2017	Roots & Wings Liaisons (Lead)  Placement Coordinator
<b>D.</b> Add/adjust documents as needed.	March 2017	July 2017	FCS Licensing Supervisor (Lead)  FCS Analyst  Student Intern if available

E. Develop a plan to distribute updated handbooks to Resource parents.	July 2017	August 2017	FCS Licensing Supervisor
F. Distribute updated handbooks.	August 2017	Ongoing	FCS Licensing Supervisor
<b>Strategy 6:</b> Educate Caregivers Regarding Mental Health Treatment And Psychotropic Medications For Youth	<input type="checkbox"/> CAPIT	Applicable Outcome Measure(s) and/or Systemic Factor(s): Caregiver training, retention and support	
	<input type="checkbox"/> CBCAP		
	<input type="checkbox"/> PSSF	<input type="checkbox"/> Title IV-E Child Welfare Waiver Demonstration Capped Allocation Project	
	<input checked="" type="checkbox"/> N/A		
Action Steps:	Implementation Date:	Completion Date:	Person Responsible:
A. Meet with relevant stakeholders in Children's Mental Health to ensure a shared understanding of current practices in the provision of children's mental health services and decision making regarding prescribing psychotropic medication for foster youth.	September 2015	November 2015	FCS Assistant Division Director (Lead) FCS Licensing Program Manager
B. Develop a summary of messages and information the department desires to have included in training for caregivers.	September 2015	November 2015	FCS Licensing Program Manager (Lead) CMH Program Manager

5 YEAR SIP STRAGEY MATRIX – SANTA CRUZ COUNTY

<p><b>C.</b> Work with Cabrillo College’s Foster and Kinship Care Education (FKCE) program to identify trainers with the required content knowledge.</p>	<p>December 2015</p>	<p>January 2016</p>	<p>FCS Licensing Program Manager (Lead) FCS Licensing Supervisor</p>
<p><b>D.</b> Meet with identified trainer(s) to convey the desired messages and information to ensure trainer is prepared to deliver the desired training to caregivers.</p>	<p>January 2016</p>	<p>February 2016</p>	<p>FCS Licensing Program Manager (Lead) FCS Licensing Supervisor Cabrillo FKCE program</p>

Children’s Network Coordination and Capacity Building

**SERVICE PROVIDER**

United Way of Santa Cruz County (Child Abuse Prevention Council)

**PROGRAM DESCRIPTION**

Provide services and perform activities to enhance the coordination and capacity-building functions of the Children’s Network. The Children’s Network is the countywide child abuse prevention coordinating council whose primary purpose is to coordinate the community’s efforts to prevent and respond to child abuse and to reduce fragmentation of programs for at-risk children and families in Santa Cruz County. It serves as a vehicle for planning, coordination, collaboration, networking and information sharing. The intent of the Children’s Network is to encourage the development of a comprehensive and collaborative delivery system of services to the children and youth of Santa Cruz County.

**COUNTY:**

**DATE APPROVED BY OCAP:**

**PROGRAM NAME**

Families Together (Differential Response Services)

**SERVICE PROVIDER**

Encompass Community Services

**PROGRAM DESCRIPTION**

Families Together is a comprehensive child abuse early intervention and prevention program serving the entire county. This initiative, using a differential response model (Path 1 and Path 2), is a collaborative effort between the FCS Division and Encompass Community Services. Funding from First 5, and Santa Cruz County Health Services and Human Services Departments (including CCTF, CAPIT, and PSSF Family Support) are braided together to support this program. Families Together is an essential part of the Differential Response strategy developed in Santa Cruz County to reduce child abuse and neglect. It is an innovative program that utilizes home-based, individualized services with an emphasis on the parent-child relationship and child development and parent education. Goals of the program include:

- Improved parent-child relationship
- Improved family support
- Improved community engagement
- Improved child safety
- Improved child health and development
- Improved child well-being

Participation in Families Together is voluntary. Family and Children's Services (FCS) refers parents and pregnant women to this program when they've been reported to FCS and the referral has been either assessed out or investigated and the case has been closed with a substantiated or inconclusive allegation.

Once a referral is identified, a FCS social worker contacts the family to engage them in voluntary community-based services. The following services are provided:

- Assessment using SDM assessment tools, Ages and Stages Questionnaire (ASQ) and the Nursing Child Satellite Training (NCAST)
- Provision of basic needs – food, housing, diapers, transportation, clothing, job search
- Advocacy – for medical care, legal issues, education
- Housing assistance – rental assistance, housing resources, budgeting skills
- Parent education and skill building – early childhood education, Triple P Parenting education
- Mental health services – counseling, psychological assessment, support groups, development of life skills

- Referral to other community resources
